Google class room code :
bbzysvy

<https://classroom.google.com/c/NTE4MTQ0OTA1NDU4?cjc=bbzysvy>

Which version Java :
Upto the Latest Version Java 20v
[Upto Java 8v and 11v]

Prerequisites :
No Prerequisites, C and C++ knowledge is not required
You can learn Java as your first language

Who can attend :
Who ever what to learn Programming and
Who ever want to do IT job can learn Java
[high school, +2, Degree, PG, Any Working IT Employee]
[School teachers, college teachers]

Material :
I will share complete material and running notes
through google classroom

Recordings :
No Recordings are provided, you must attend Live classes
If we find you are recording, we will terminated from batch.

The reason for not sharing recordings, recordings will

make you lazy

you wont study daily, which leads to time and money

waste.

Which gives failure to you and to me too.

*** Only demo class recording will be uploaded here ***

Demo classes will be for 5 days

Missed classes :

In google class room, I will send daily class content, study that

material

Like in college, you can contact your classmates to clear your

doubts

Online students can contact your classmates through the

telegram group

created for your batch.

Every day I will revise previous class topic, then I will start new

topic.

Even then if you have doubts on missed class topic, you meet

me after class.

For offline students admin:

will share in tomorrow class

For online students admin:

Mr. Shubham 7337313415

My number :

9010 4545 84

[if admins not responding then only contact me]

My promise and Target of this course:

By End of the course : You can get knowledge equals to

3+ years of experienced programmer

knowledge

You can get Job as : As a fresher or as an experienced(3+)

Target of this course : Making You Full Stack Java Developer

with Compiler and JVM architectures knowledge
to make your first interview as last interview

Your Promise:

1. Just maintain Punctuality and Consistency
